## SUBJECT INDEX

- 31-epilolitre B and electromyographic activity of the reticulum and rumen of sheep, Tremorgenic mycotoxins paxilline, penitrem and lolitre B, the non-tremogenic, 119
- $\alpha$ -macroglobulins by enzyme immuno-assay, Detection and measurement of canine, 185
- Albendazole and its metabolites in calves grazed on pasture or fed a grain-based diet, Differences in plasma and abomasal kinetics of, 223
- Albendazole sulphoxide after netobimin administration in sheep: effects of fenbendazole coadministration, Bioavailability of (SC), 281
- Anaesthesia in ponies, Effects of hypoxia on endocrine and metabolic responses to, 39
- Angiographic anatomy of the portal venous system in the dog, The, 211
- Apoptosis and mitosis in tumours of the skin and subcutaneous tissues of the dog, 139
- Asphyxia at birth on subsequent heat production capacity in newborn pigs, Effects of acute, 45
- Bioavailability of albendazole sulphoxide after netobimin administration in sheep: effects of fenbendazole coadministration (SC), 281
- Bladder dimensions and volume determinations, Comparison of ultrasonographic and radiographic measurements of, 175
- Bluetongue Virus by immunisation of mice with EHDV recombinant VP7 antigen, Characterisation of monoclonal antibodies to Epizootic Hemorrhagic Disease Virus of deer (EHDV) and, 247
- Brucella abortus* strain RB51: serology, clearance and efficacy, Responses of cattle to two dosages of, 101
- c-myc* oncogene product in various animal tissues and spontaneous canine tumours, Expression of, 205
- Canine serum thyroglobulin autoantibodies in health, hypothyroidism and non-thyroidal illness, 243
- Capture on the haematology and blood chemistry of red deer (*Cervus elaphus*), Effect of the method of, 81
- Castration in young lambs, Quantification of the pain and distress responses to, 107
- Characterisation of equine T helper cells: Demonstration of Th<sub>1</sub>- and Th<sub>2</sub>-like cells in long-term equine T-cell cultures (SC), 277
- Characterisation of monoclonal antibodies to Epizootic Hemorrhagic Disease Virus of deer (EHDV) and Bluetongue Virus by immunisation of mice with EHDV recombinant VP7 antigen (SC), 273
- Colibacillosis models, Use of lipopolysaccharide (LPS) as a positive control for the evaluation of immunopotentiating drug candidates in experimental avian, 33
- Comparative investigation on the effect of T-2 mycotoxin on lipid peroxidation and antioxidant status in different poultry species, 19
- Comparison of ultrasonographic and radiographic measurements of bladder dimensions and volume determinations, 175
- Cyclosporin A immunosuppression, Investigation into avian pneumovirus persistence in poults and chicks using (SC), 161
- Cytochrome P450 activity by different macrolides and tiamulin in goats and cattle, In vitro complex formation and inhibition of hepatic, 51
- Detection and measurement of canine  $\alpha$ -macroglobulins by enzyme immuno-assay, 185
- Detection of high levels of canine herpes virus-1 neutralising antibody in kennel dogs using a novel serum neutralisation test (SC), 273
- Determination of behavioural traits of pure-bred dogs using factor analysis and cluster analysis; a comparison of studies in the USA and UK, 73
- Differences in plasma and abomasal kinetics of albendazole and its metabolites in calves grazed on pasture or fed a grain-based diet, 223
- Diurnal fluctuations in rectal temperature of the Red Sokoto goat during the harmattan season, 7
- Effect of the method of capture on the haematology and blood chemistry of red deer (*Cervus elaphus*), 81
- Effects of acute asphyxia at birth on subsequent heat production capacity in newborn pigs, 45
- Effects of hypoxia on endocrine and metabolic responses to anaesthesia in ponies, 39
- Effects of vitamin D and retinoids on the differentiation and growth in vitro of canine osteosarcoma and its clonal cell lines, 231
- Endotoxin-dependent fever in pre-pubertal pigs following acute activation of the pituitary-adrenocortical axis: towards a new hypothesis of fever regulation, Studies of, 85
- Epizootic Hemorrhagic Disease Virus of deer (EHDV) and Bluetongue Virus by immunisation of mice with EHDV recombinant VP7 antigen, Characterisation of monoclonal antibodies to, 247
- Evaluation of an ELISA-PPD for the diagnosis of bovine tuberculosis in field trials in Brazil, 191
- Evaluation of iron-dextran supplementation in piglets administered by injection on the first, third or fourth day after birth, An, 179
- Expression of *c-myc* oncogene product in various animal tissues and spontaneous canine tumours, 205
- Fasciolosis, Monoclonal antibody sandwich immunoassay detection of coproantigen to evaluate the efficacy of treatment in natural ovine (SC), 165
- Fast resolution of hypercortisolism in dogs with portosystemic encephalopathy after surgical shunt closure, 63
- Fenbendazole coadministration, Bioavailability of albendazole sulphoxide after netobimin administration in sheep: effects of (SC), 281
- Fever regulation, Studies of endotoxin-dependent fever in pre-pubertal pigs following acute activation of the pituitary-adrenocortical axis: towards a new hypothesis of, 85
- Haemonchus contortus*, The response of Nigerian West African Dwarf goats to experimental infections with, 147
- Haemorrhagic disease virus, Hepatic lesions in young rabbits experimentally infected with rabbit, 237
- Harmattan season, Diurnal fluctuations in rectal temperature of the Red Sokoto goat during the, 7
- Hepatic lesions in young rabbits experimentally infected with rabbit haemorrhagic disease virus, 237
- Herpes virus-1 neutralising antibody in kennel dogs using a novel serum neutralisation test, Detection of high levels of canine (SC), 273
- Hypercortisolism in dogs with portosystemic encephalopathy after surgical shunt closure, Fast resolution of, 63
- Hypoxia on endocrine and metabolic responses to anaesthesia in ponies, Effects of, 39
- Immunohistochemical study of interstitial cells of Cajal (ICC), in the equine gastrointestinal tract, An, 265
- In vitro anti-proliferative effects of some anti-tumour drugs on feline mammary tumour cells, 169
- In vitro complex formation and inhibition of hepatic cytochrome P450 activity by different macrolides and tiamulin in goats and cattle, 51
- Increased interleukin-6 activity in the serum of ponies acutely infected with equine infectious anaemia virus (SC), 77
- Infectious anaemia virus, Increased interleukin-6 activity in the serum of ponies acutely infected with equine (SC), 77
- Interleukin-6 activity in the serum of ponies acutely infected with equine infectious anaemia virus, Increased (SC), 77
- Interstitial cells of Cajal (ICC), in the equine gastrointestinal tract, An immunohistochemical study of, 265

- Investigation into avian pneumovirus persistence in poults and chicks using cyclosporin A immunosuppression (SC), 161
- Iron-dextran supplementation in piglets administered by injection on the first, third or fourth day after birth, An evaluation of, 179
- Ivermectin in plasma and faeces following administration of a sustained release bolus in cattle, Persistence of, 57
- Larval migration inhibition activity in abomasal mucus and serum from calves infected with *Ostertagia ostertagi*, 253
- Lipopolysaccharide (LPS) as a positive control for the evaluation of immunopotentiating drug candidates in experimental avian colibacillosis models, Use of, 33
- Locomotor, cardiocirculatory and metabolic adaptations to training in Andalusian and Anglo-Arabian horses, 25
- Lolitre B, the non-tremogenic 31-epilolitre B and electromyographic activity of the reticulum and rumen of sheep, Tremogenic mycotoxins paxilline, penitre B and, 119
- Macrolide antibiotics, drug interactions and microsomal enzymes: implications for veterinary medicine, 197
- Mammary tumour cells, In vitro anti-proliferative effects of some anti-tumour drugs on feline, 169
- Metabolic effects of nitric oxide synthase inhibition during exercise in the horse, 135
- Mitosis in tumours of the skin and subcutaneous tissues of the dog, Apoptosis and, 139
- Mitral valve prolapse examined under different study conditions, Neuroendocrine changes in Dachshunds with, 11
- Monoclonal antibody sandwich immunoassay detection of coproantigen to evaluate the efficacy of treatment in natural ovine fasciolosis (SC), 165
- Netobimin administration in sheep: effects of fenbendazole coadministration, Bioavailability of albendazole sulphoxide after (SC), 281
- Neuroendocrine changes in Dachshunds with mitral valve prolapse examined under different study conditions, 11
- Nitric oxide synthase inhibition during exercise in the horse, Metabolic effects of, 135
- Oestradiol concentrations throughout gestation in cattle: relationship to stage of gestation and fetal number, Plasma oestrone and, 129
- Oestrone and oestradiol concentrations throughout gestation in cattle: relationship to stage of gestation and fetal number, Plasma, 129
- Osteosarcoma and its clonal cell lines, Effects of vitamin D and retinoids on the differentiation and growth in vitro of canine, 231
- Ostertagia ostertagi*, Larval migration inhibition activity in abomasal mucus and serum from calves infected with, 253
- Oxytocin modulates the pulsatile secretion of prostaglandin  $F_{2\alpha}$  in initiated luteolysis in cattle, 1
- Paxilline, penitre B and lolitre B, the non-tremogenic 31-epilolitre B and electromyographic activity of the reticulum and rumen of sheep, Tremogenic mycotoxins, 119
- Penitre B and lolitre B, the non-tremogenic 31-epilolitre B and electromyographic activity of the reticulum and rumen of sheep, Tremogenic mycotoxins paxilline, 119
- Persistence of ivermectin in plasma and faeces following administration of a sustained release bolus in cattle, 57
- Pharmacokinetics of promethazine after intravenous administration in camels, The (SC), 159
- Plasma oestrone and oestradiol concentrations throughout gestation in cattle: relationship to stage of gestation and fetal number, 129
- Pneumovirus persistence in poults and chicks using cyclosporin A immunosuppression, Investigation into avian (SC), 161
- Portal venous system in the neonatal dog, The angiographic anatomy of the, 211
- Portosystemic encephalopathy after surgical shunt closure, Fast resolution of hypercortisolism in dogs with, 63
- Presence of muramidase released protein and extracellular factor protein in various serotypes of *Streptococcus suis* isolated from diseased and healthy pigs in Spain, The, 69
- Production of monoclonal antibodies and enzyme immunoassay to bovine retinol-binding protein and determination of retinol-binding protein serum levels and retinol concentrations in serum and liver in dairy cows before and after parturition, 259
- Promethazine after intravenous administration in camels, The pharmacokinetics of, (SC), 159
- Prostaglandin  $F_{2\alpha}$  in initiated luteolysis in cattle, Oxytocin modulates the pulsatile secretion of, 1
- Pulsed-field gel electrophoresis and distribution of the genes *zag* and *fnz* in isolates of *Streptococcus equi*, 93
- Pure-bred dogs using factor analysis and cluster analysis; a comparison of studies in the USA and UK, Determination of behavioural traits of, 73
- Quantification of the pain and distress responses to castration in young lambs, 107
- Response of Nigerian West African Dwarf goats to experimental infections with *Haemonchus contortus*, The, 147
- Responses of cattle to two dosages of Brucella abortus strain RB51: serology, clearance and efficacy, 101
- Retinoids on the differentiation and growth in vitro of canine osteosarcoma and its clonal cell lines, Effects of vitamin D and, 231
- Retinol concentrations in serum and liver in dairy cows before and after parturition, Production of monoclonal antibodies and enzyme immunoassay to bovine retinol-binding protein and determination of retinol-binding protein serum levels and, 259
- Skin and subcutaneous tissues of the dog, Apoptosis and mitosis in tumours of the, 139
- Streptococcus equi*, Pulsed-field gel electrophoresis and distribution of the genes *zag* and *fnz* in isolates of, 93
- Streptococcus suis* isolated from diseased and healthy pigs in Spain, The presence of muramidase released protein and extracellular factor protein in various serotypes of, 69
- Studies of endotoxin-dependent fever in pre-pubertal pigs following acute activation of the pituitary-adrenocortical axis: towards a new hypothesis of fever regulation, 85
- Studies of endotoxin-dependent fever in pre-pubertal pigs following acute activation of the pituitary-adrenocortical axis: towards a new hypothesis of fever regulation, 85
- T helper cells: Demonstration of  $Th_1$ - and  $Th_2$ -like cells in long-term equine T-cell cultures (SC), Characterisation of equine (SC), 277
- T-2 mycotoxin on lipid peroxidation and antioxidant status in different poultry species, Comparative investigation on the effect of, 19
- Temperature of the Red Sokoto goat during the harmattan season, Diurnal fluctuations in rectal, 7
- Thiamphenicol disposition in pigs, 219
- Thyroglobulin autoantibodies in health, hypothyroidism and non-thyroidal illness, Canine serum, 243
- Tiamulin in goats and cattle, In vitro complex formation and inhibition of hepatic cytochrome P450 activity by different macrolides and, 51
- Training in Andalusian and Anglo-Arabian horses, Locomotor, cardiocirculatory and metabolic adaptations to, 25
- Tremogenic mycotoxins paxilline, penitre B and lolitre B, the non-tremogenic 31-epilolitre B and electromyographic activity of the reticulum and rumen of sheep, 119
- Tuberculosis in field trials in Brazil, Evaluation of an ELISA-PPD for the diagnosis of bovine, 191
- Use of lipopolysaccharide (LPS) as a positive control for the evaluation of immunopotentiating drug candidates in experimental avian colibacillosis models, 33
- Vitamin D and retinoids on the differentiation and growth in vitro of canine osteosarcoma and its clonal cell lines, Effects of, 231
